NOW IS THE TIME TO MAKE SURE YOUR TRACTOR IS READY FOR SEEDING!
COME IN AND GRAB YOUR FILTERS AND LUBRICANTS TODAY!

Did you know that the life of a Carbon Filter is regarded as 12 months or 400hrs?

Carbon Filters are specifically designed to protect the operator of a machine from inhaling contaminants whilst spraying.

How long has it been since you had your carbon filter changed in your spray tractor? Do you even have carbon filters in your spray tractor? These are the questions you should be asking yourself. Safeguard yourself from future respiratory problems.

Pricing for recharges starts from \$125.00 + GST

For more information on these talk to Laura or Andrew .

What have the workshop crew been up to?

Over the last couple of months the service boys have been busy with training to keep their skills up to date.

- Aiden has been in Sydney learning about the new T8 Series Tractors
- Mitch has been in Kadina brushing up on his Electrical Systems Diagnosis
- Nick has been in Kadina working on Hydraulic Systems Diagnosis
- Clint is preparing to head to Sydney to learn about the T7 Series Tractors.
