NEW HOLLAND – COMBINE ‘Tour de Harvest’

We are excited to announce the New Holland ‘Combine Tour de Harvest’! It is an exclusive 9 day customer focused educational tour of London, Brugge and Paris.

The trip includes: A visit to the Basildon Tractor Plant (London) where the T6 & T7 tractors are manufactured, a visit to the Zedelgem Plant (Brugge) where the CR, CX, Self Propelled Windrowers and Big Balers are manufactured and where Owen was based for 8 weeks in 2013, and much much more.

How do you become eligible for this tour? Simple – purchase a CR Combine Harvester prior to 31st March 2014. Customers also have the opportunity to Buy In for this trip. Contact us at Swan Farm Machinery for more Information.

**We are holding a CR Combine Information Afternoon/Evening
3pm onwards Monday 17th February - Sausage Sizzle and Refreshments Provided
Contact us for more information**

K-LINE SPEEDTILLER DEMO DAY

The K-Line Speedtiller is a highly effective disc-tilling machine, ideal for soil conditioning in the presence of high levels of crop trash.

Operating best at high speeds, it gives greater fuel efficiency and allows stubble residue to pass easily through the machine.

We are holding a demonstration day on this machine on
Wednesday 19th February, 2014

Please contact Geoff Biddle on 0400 151 323 for more information

CONGRATULATIONS TO QUALIFYING MECHANICS

A Big Congratulations to Nick Hartmann and Mitch Reichelt on achieving their trade certificate's last month.

Their formal qualification adds to the wealth of knowledge and experience we have here at Swan Farm Machinery.

Other Milestones in 2014 include:

- Bevan Swan – 30 Years in Agriculture – January
- Trevor Hawkins – 31 Years in Spare Parts - March
- Owen Swan – 28 Years in Agriculture – January
- Geoff Biddle – 10 Years in Agriculture Sales - March
- Andrew Roberts – 30 Years in Automotive Wrecking Industry (Our in-house Automotive Guru!)

If it's anything agricultural you are after – rest assured that we have the knowledge and ability to source your machinery, parts and keep them running.

It's now time to start thinking about servicing your tillage equipment!

From points, tynes, boots, nuts and bolts to Press Wheels, Coulters and Discs, we have a large range of products available from a range of different manufacturers.

Come in and see Andrew or Laura and let us know what we can help you with this season
