

## NEWSLETTER No. 35 – NOVEMBER 2013

### CASH IN ON THE CONSERVATION TILLAGE TAX REBATE BEFORE IT RUNS OUT!

The Conservation Tillage Tax Rebate is due to expire June 2014. Take advantage of the massive savings available by ordering your new Tillage Equipment on one of the many early order program's available from our manufacturers. On top of savings from the manufacturer, you may be eligible for the 15% Conservation Tillage Refundable Tax Offset.

Please refer to your accountant for further details on the offset.

Come in and talk to Bevan or Geoff about what deals we can do for you on the following brands:

#### MORRIS

#### SIMPLICITY AUSTRALIA

#### JOHN SHEARER

#### HORWOOD BAGSHAW

### Ever gone to an aftermarket supplier first under the impression that aftermarket is cheaper than Genuine?

Recently, we have been comparing prices on a number of high price items – including Header Concaves and the Genuine New Holland Part has come out cheaper than aftermarket alternative.

As an agent for a large range of aftermarket suppliers including :

Neils Parts, Bareco, Sparex and Agpoint we have the ability to compare prices and get you the best deal.

Save time running around for prices and talk to Andrew or Laura about your needs today!

### ARE YOU PREPARED FOR FIRE SEASON?

We can assist you with a wide range of firefighting equipment, including:

- Fire Extinguishers
- Fire Fighter Pumps – with Honda Motor
- Complete tank/pump packages

Now is the time to make sure you are organized.

If you are running short on time, talk to us about having a look at your unit and making sure its ready to go!

### MACDON WINDROWERS

Looking at a New Self-Propelled Windrower?

**Now is a great time to buy!**

Talk to Bevan or Geoff about the great deals available on Macdon Self-Propelled Windrower's with their Forward order Program.

With 5 of these machines around the district we can organize a demonstration if you are interested!

### New Ambra Transmission Oil - Mastertran Ultracation

Ambra have just released an upgraded Mastertran Ultracation Transmission Oil. This new Oil is an upgraded version of the old Mastertrants which is no longer available. It boasts a zinc free anti-wear formula, controlled frictional characteristics and an unmatched moisture tolerance.

**\*We would also like to advise that after holding our oil prices firm for the past 2 years, we are now having to pass on a small increase to our range.\***
